Project Charter

Business Case / Background

Why are we doing this?

Max12, a training and consulting company, aims to address the confusion many university students and graduates face in choosing the right career path, identifying the skills required, and selecting relevant educational resources. This lack of clarity often delays their career progress and entry into the workforce.

By providing structured career guidance, including information on what to study, where to study, key certifications, job opportunities, and salary expectations, Max12 has the opportunity to meet a critical need in the market. This project will help increase the company's customer base by 40% within 6 months, leading to a 30% growth in sales. It will also position Max12 as a go-to resource for students and graduates seeking career direction.

Benefits, Costs, and Budget

Benefits:

- **Increased Customer Base:** By offering structured and clear career guidance tailored to the needs of university students and graduates, Max12 will attract a larger audience, leading to a projected 40% increase in its customer base within 6 months. This growth will directly contribute to boosting the company's sales and market presence, as more students and graduates will turn to Max12 for their career planning and development needs.

Costs:

- Price of Development , Marketing Expenses , Human Resources , Technology and Tools , Operations Costs .

Budget needed:

- 40,000 EGP - 50,000 EGP

Scope and Exclusion

In-Scope:

- Career Guidance Development , Training Modules , Marketing Campaigns , Bi-Weekly Progress Reviews , Customer Feedback Collection .

Out-of-Scope:

- Personalized One-on-One Career Counseling , International Market Expansion , Technical Skills Training Development .

Project Team

Project Sponsor: Director of Operations

Project Lead: Project Manager (You!)

Project Team: Fulfillment Director, Quality Assurance Tester, Inventory Manager, Financial Analyst, Human Resources Specialist, Training Manager

Additional Stakeholders: VP of Customer Success, Account Manager, Receptionist, Sales Director, Sales Team, Marketing Director, Investors

Measuring Success

What is acceptable:

1. **40% Increase in Customer Base:** Achieving a 40% growth in Max12's customer base within 6 months, measured through customer acquisition metrics and enrollment numbers in training programs.
2. **30% Increase in Sales:** Realizing a 30% increase in sales revenue over the same 6-month period, tracked through sales reports, CRM data, and financial statements.

Risk Management

RISK TYPE ONE: Going over the project budget

Scenario	Risk to project (L/M/H)	Mitigation Plan
Minor cost increases due to inflation or slight changes in project scope	Low	<ul style="list-style-type: none">• Regular Review: Conduct monthly budget reviews to identify minor variances.• Adjustments: Make small adjustments to non-essential budget items to accommodate slight increases.
Delays in project milestones lead to increased costs, such as overtime for staff or extended resource usage.	Medium	<ul style="list-style-type: none">• Timeline Management: Monitor project timelines closely and address any delays immediately.• Resource Allocation: Optimize resource allocation and consider reallocating tasks to avoid overtime.• Contingency Planning: Prepare for potential cost increases by establishing a small contingency fund to cover foreseeable issues.

Major unforeseen expenses arise from vendor changes, technology upgrades, or significant scope changes that were not initially accounted for.

High

- **Comprehensive Budgeting:** Develop a detailed and flexible budget that includes provisions for major expenses.
- **Frequent Monitoring:** Implement weekly budget tracking to catch potential overruns early.
- **Stakeholder Communication:** Maintain open communication with stakeholders about budget status and any necessary adjustments.
- **Emergency Fund:** Establish a larger contingency fund to address significant financial challenges quickly.

RISK TYPE TWO: Falling behind the training schedule

Scenario	Risk to project (L/M/H)	Mitigation Plan
Minor delays in developing training materials due to normal fluctuations in workload or scheduling conflicts among team members.	Low	<ul style="list-style-type: none">• Flexible Scheduling: Implement a flexible schedule for training material development to accommodate minor delays.• Progress Check-Ins: Conduct bi-weekly check-ins to monitor the development progress and address any minor issues promptly.
<ul style="list-style-type: none">• Significant delays in completing training modules due to resource shortages, such as unavailability of subject matter experts or unforeseen personal issues among team members.	Medium	<ul style="list-style-type: none">• Backup Resources: Identify and prepare backup subject matter experts who can step in if primary resources are unavailable.• Adjust Timelines: Adjust project timelines to accommodate training delays, ensuring stakeholders are informed of changes.• Prioritization: Prioritize the most critical training modules for completion first to ensure essential content is delivered on time.

Major disruptions in the training schedule caused by external factors, such as changes in market demand leading to a need for completely revised training content, or technological failures affecting the training platform.

High

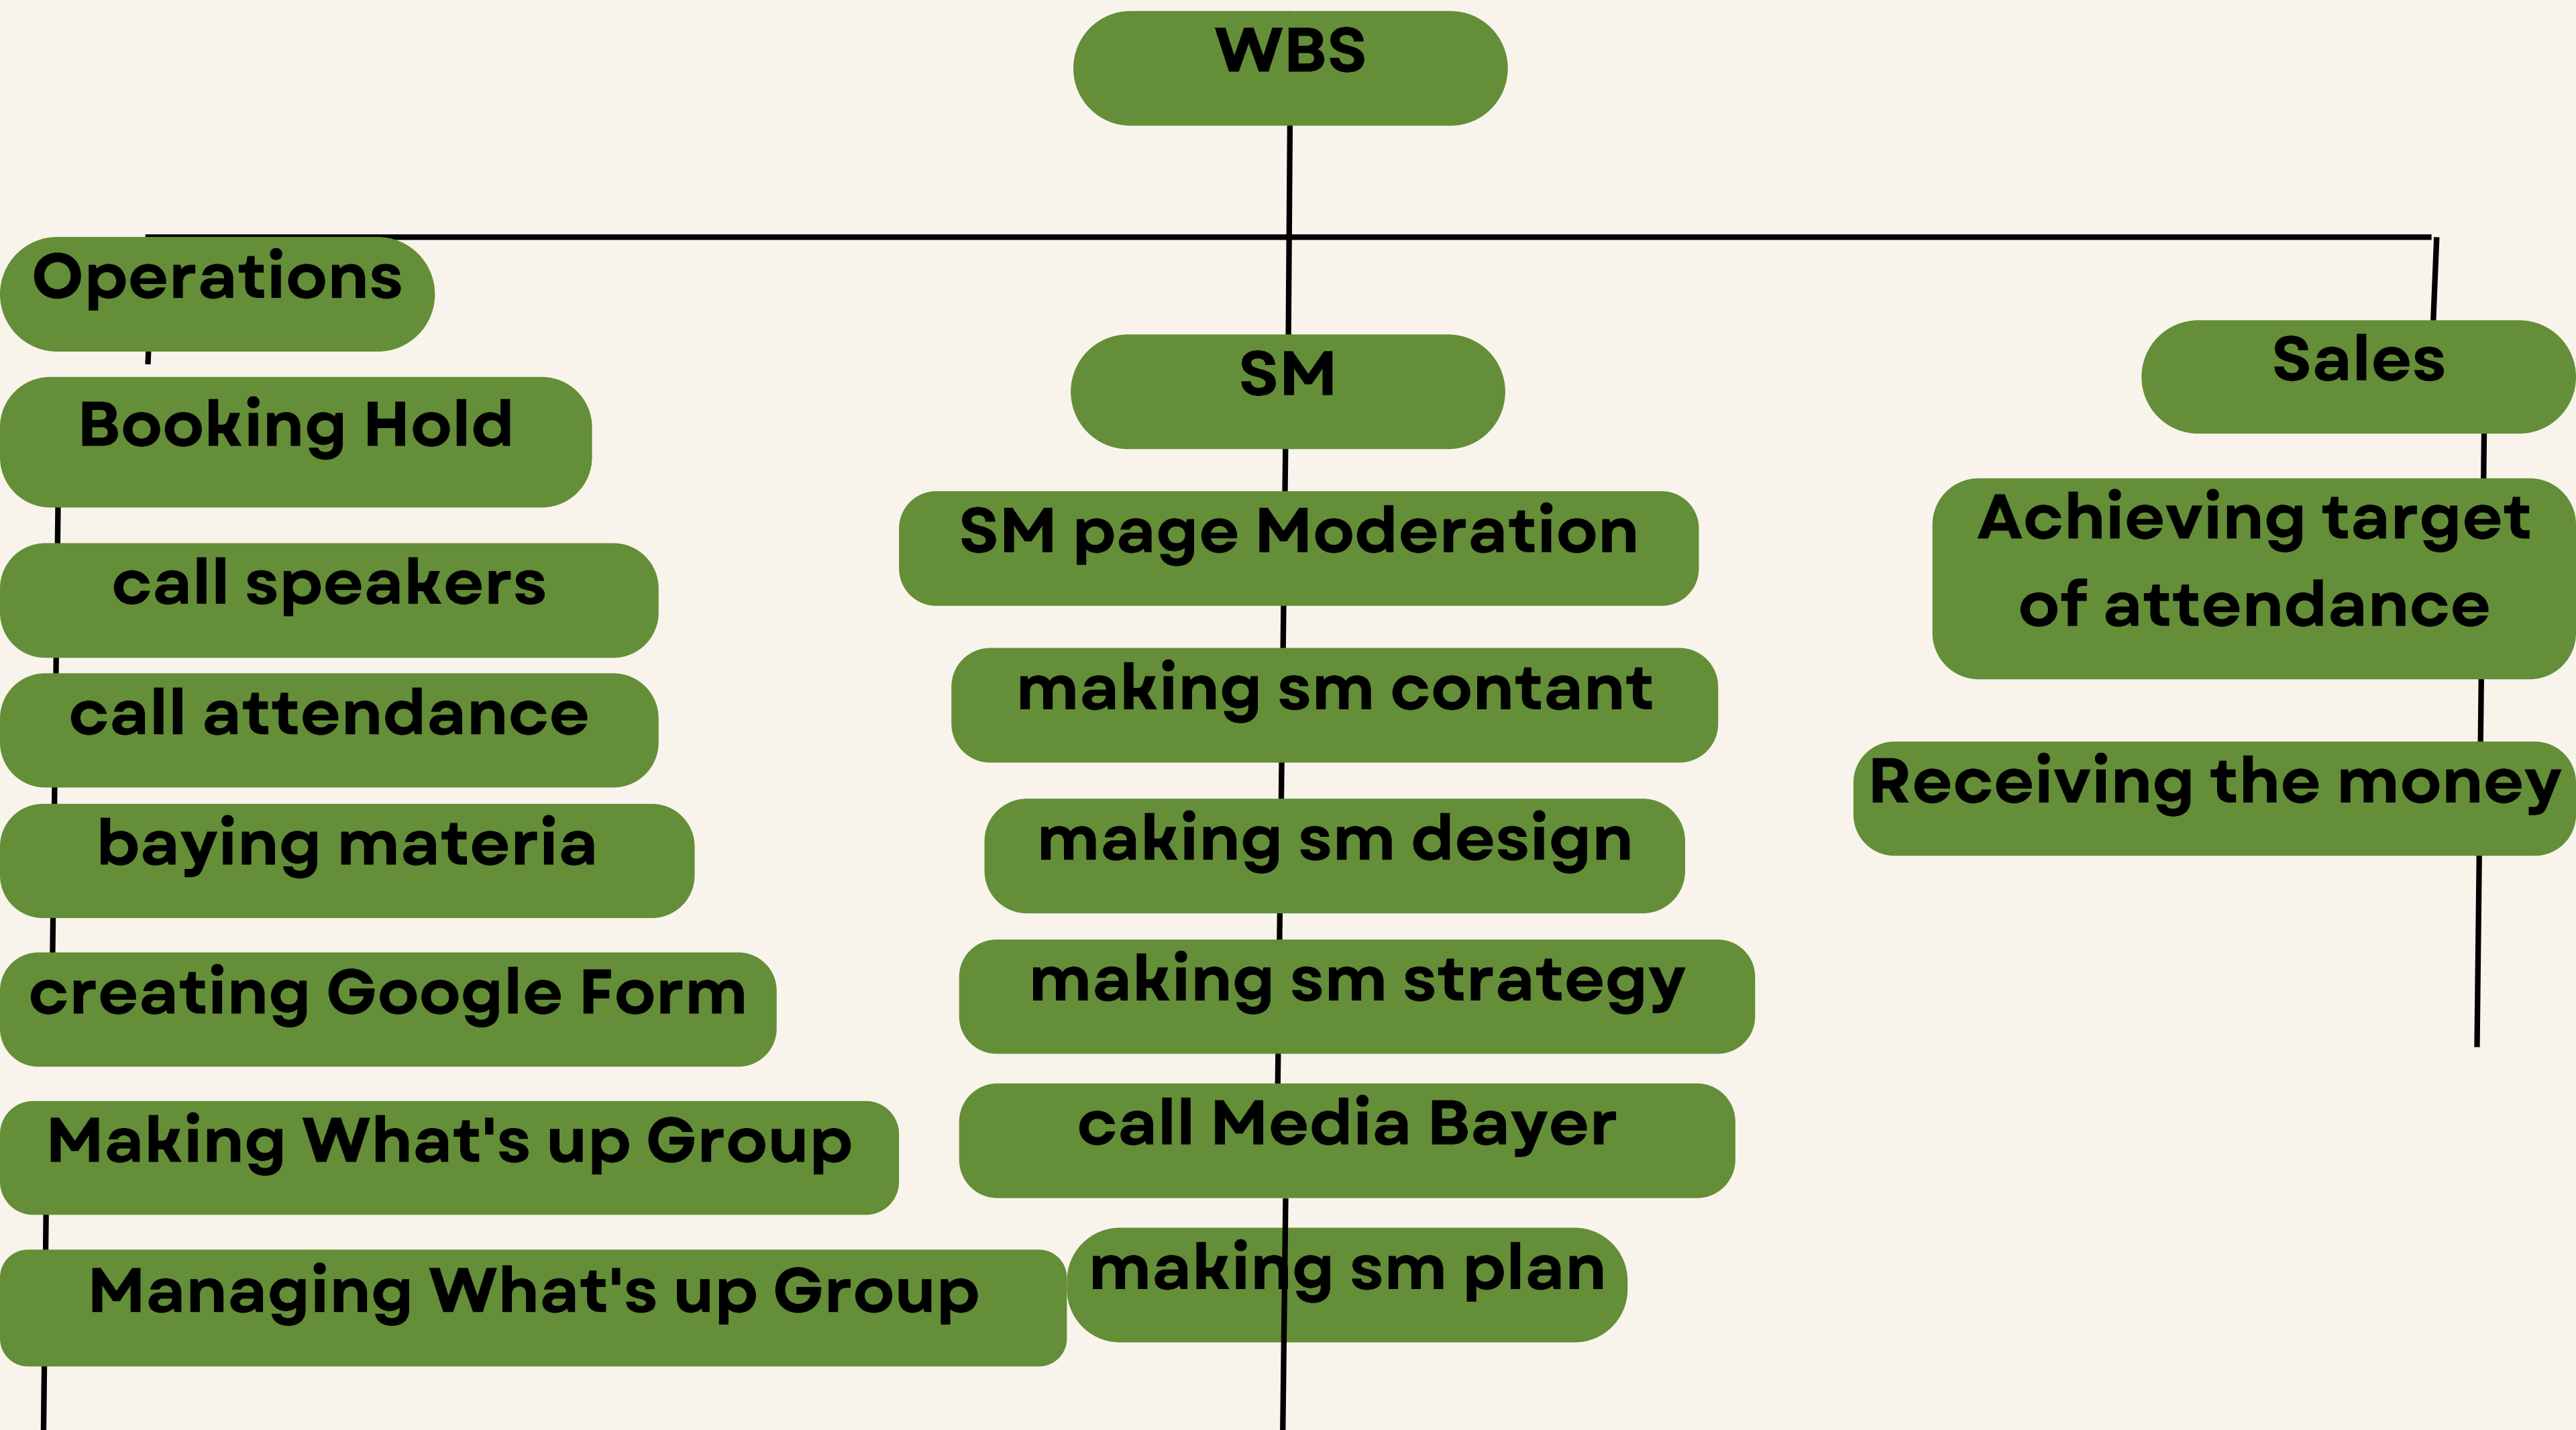

- **Contingency Planning:** Develop a contingency plan that includes alternative training methods (e.g., in-person sessions, webinars) to address disruptions.
- **Regular Review and Adaptation:** Hold regular project review meetings to assess the relevance of training materials and make necessary adaptations.
- **Resource Flexibility:** Allocate additional resources or personnel as needed to expedite the training development process during critical phases.
- **Stakeholder Engagement:** Keep stakeholders informed of potential schedule impacts and involve them in decision-making processes for necessary adjustments.

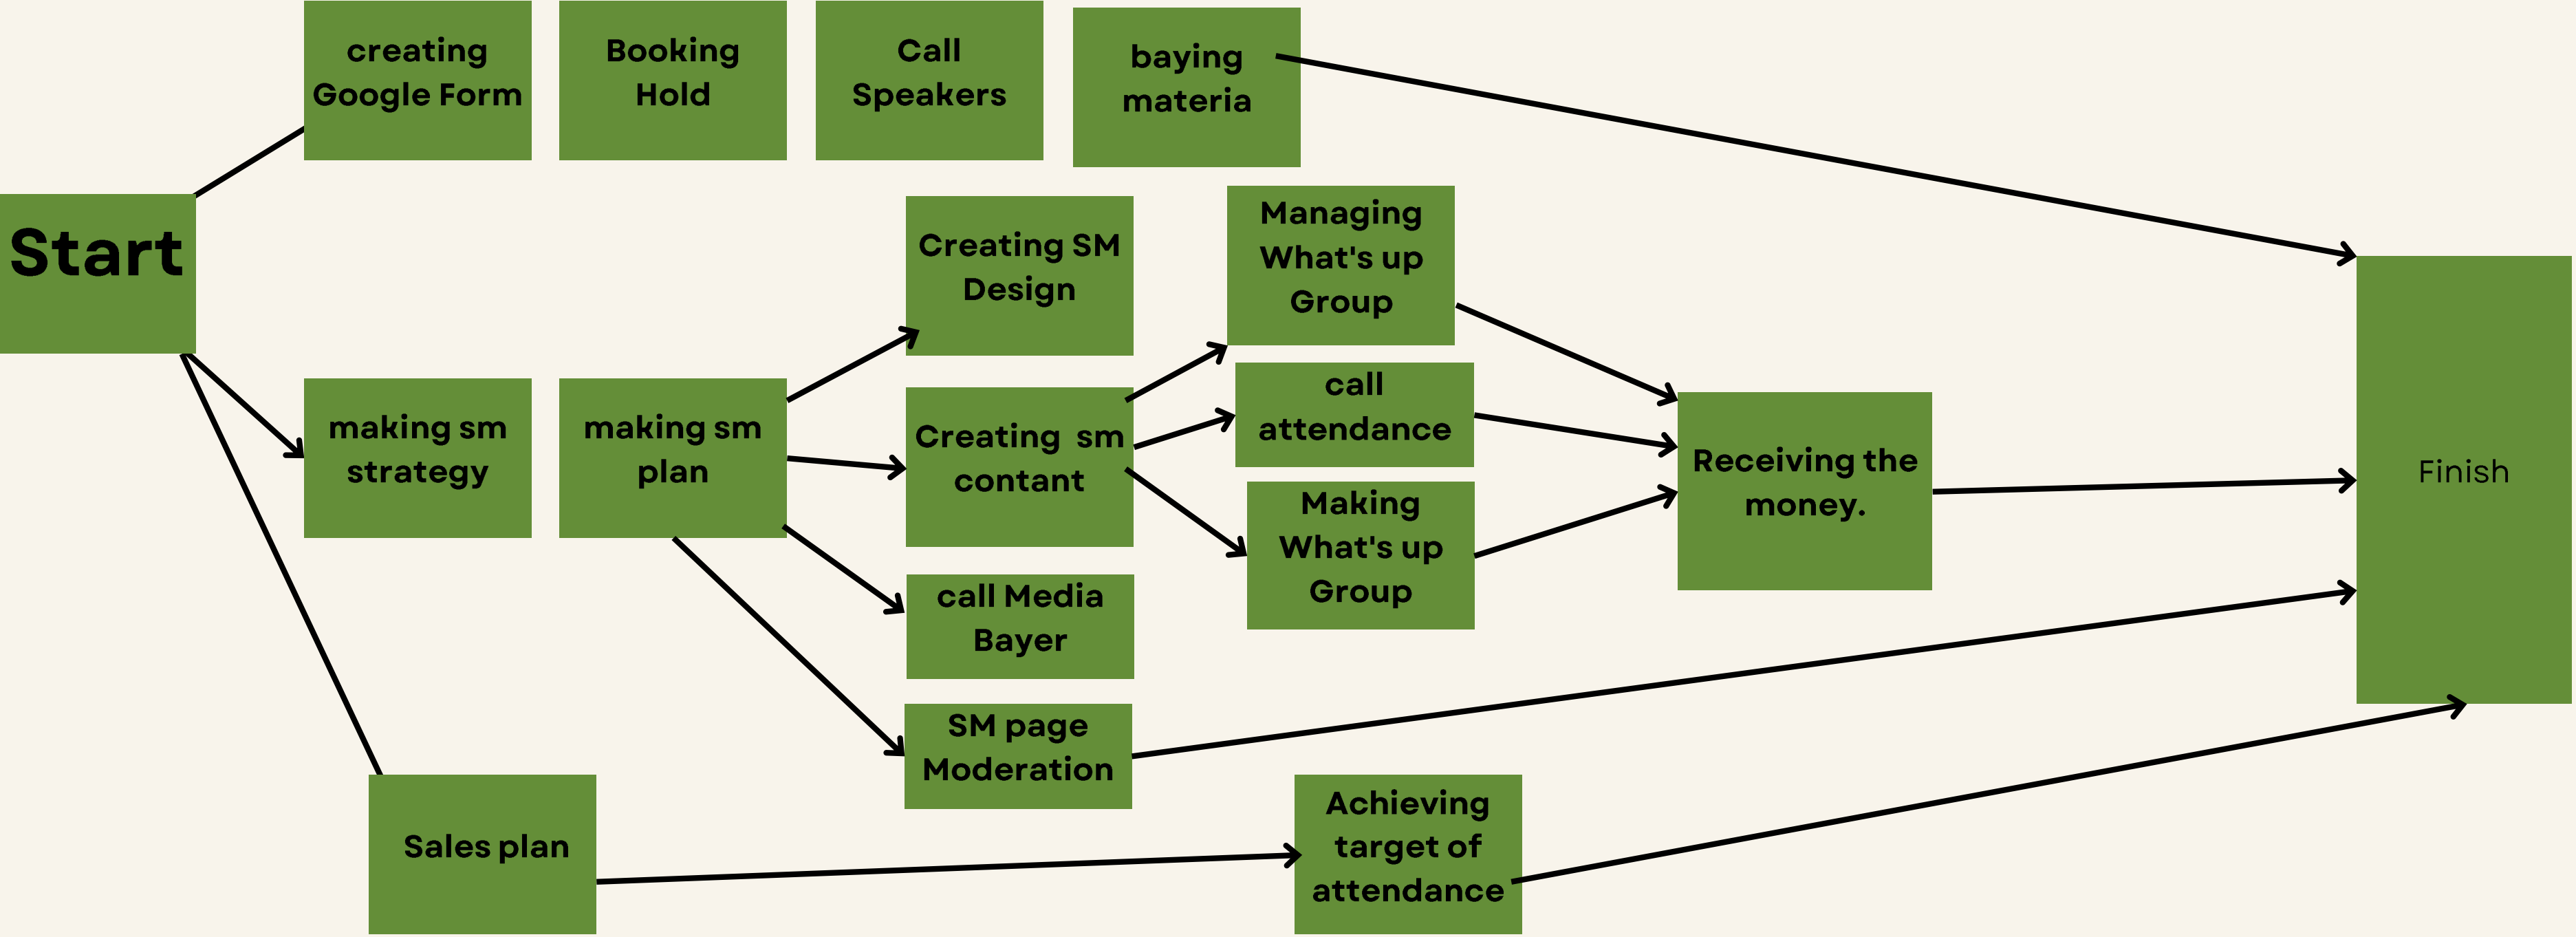

Impact chart:

Types of Impact	Low	Medium	High
Financial	Low financial impact, costing the company \$0-14,000 EGP	Medium financial impact, costing the company 15,000EGP - 29,000EGP	High financial impact, costing the company 30,000 EGP or more
Operational	Low impact to project operations, causing delays of a few days to a few weeks	Medium impact to project operations, with potential to delay project by a month or more	High impact to project operations, with potential to cause project failure
People	Low impact to employee attrition, with 5%+ of employees quitting	Medium impact to employee attrition, with 25%+ of employees quitting	High impact to employee attrition, with 50%+ employees quitting
